

Appl. No. 09/755,313
Amtd. Date June 23, 2003
Preliminary Amendment

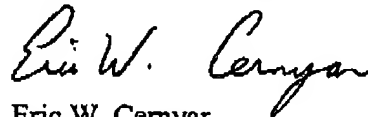

REMARKS

The Cross-Reference section of the specification has been amended to list the number of the patent which issued from U.S. Application 08/751,170. That paragraph has also been amended to correct a typographical error. An incorrect application number was supplied for the application that eventually issued as U.S. Patent No. 5,575,762. Now, the correct number is supplied.

It is respectfully submitted that the amendments do not add new matter. The listing of U.S. Patent No. 5,951,502 does not add new matter because it was otherwise disclosed by its application number. Likewise, the correction of the application number 08/223,429 did not add new matter because the application was otherwise identified by its patent number (5,575,762).

On August 13, 2002, a new power of attorney and change of correspondence address were submitted, requesting that correspondence be forwarded to the practitioners at customer number 30159. But as of October 22, 2002, the PTO was still sending correspondence to the former practitioners. Please update the PTO's records accordingly.

Respectfully submitted,

Eric W. Cernyar
